Ⅶ. DRM-X 1.0 RELATED INTEGRATION 7

Ⅷ. EXPERT SUPPORT FROM HAIHAISOFT 8

Ⅰ. Overview

Synchronize user integration is synchronizing the users register on your website into DRM-X platform. After being integrated, your users just need to register and login on your website to get the license for playing your contents protected by DRM-X.

DRM-X XML Web Service provides you with the interface that you can use to synchronize your users into DRM-X platform.

All that you need to do is just to call **DeleteProductRights** function. You can get the details about DRM-X Web Service by visiting the link below: http://www.drm-x.com/2/haihaisoftLicenseservice.asmx

Ⅱ. What necessary before integration?

DRM-X Account

You need to have a DRM-X Premier Account or a Business Account before you can integrate with your platform.

Click the link below to see the DRM-X Account Comparison,

http://www.drm-x.com/Fees-Compare.aspx

"DeleteProductrRights" page

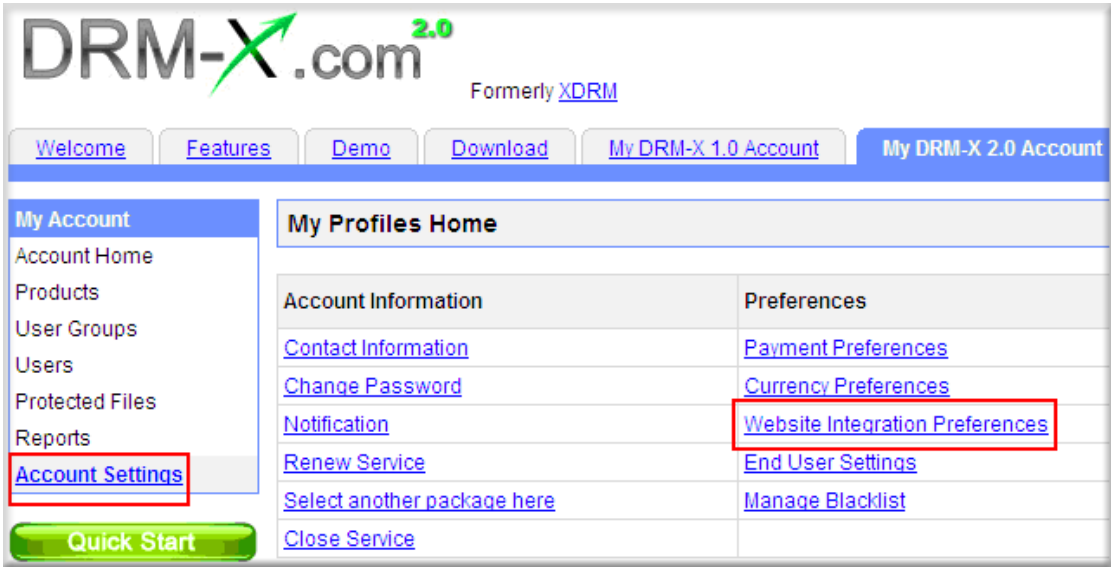
First, the product rights should exist in your database and DRM-X platform. Then, you just need to call some code. It is very easy!☺

Ⅲ. Parameter Introduction

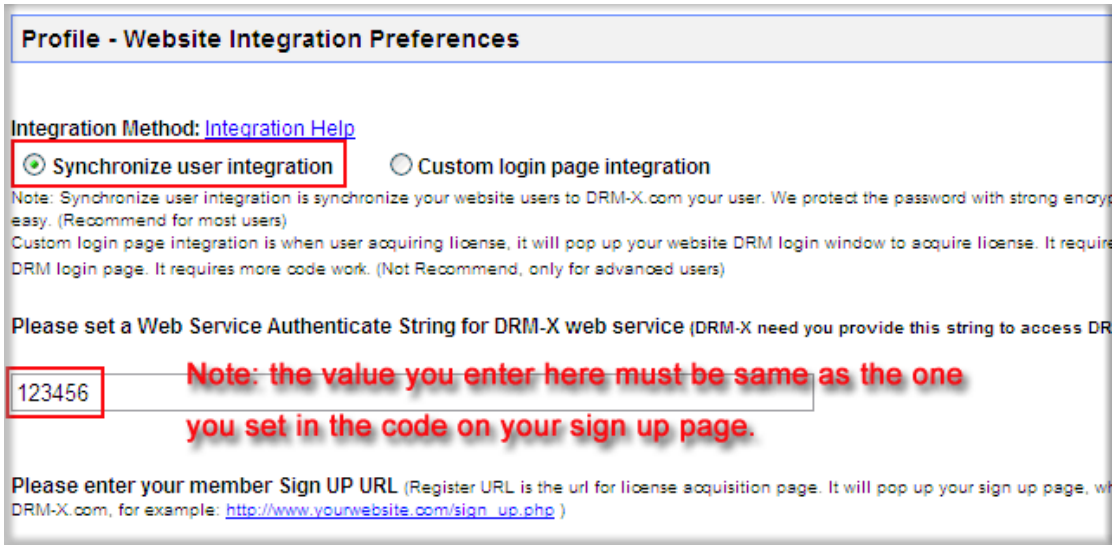
- **AdminEmail:** Your login Email of DRM-X Account. (Required).
- **WebServiceAuthStr:** The Web Service Authenticate String for DRM-X web service. The value you set here must be the same with the one on your DRM-X account.
- **ProductID:** This is Product ID in your DRM-X platform.

Steps to set:

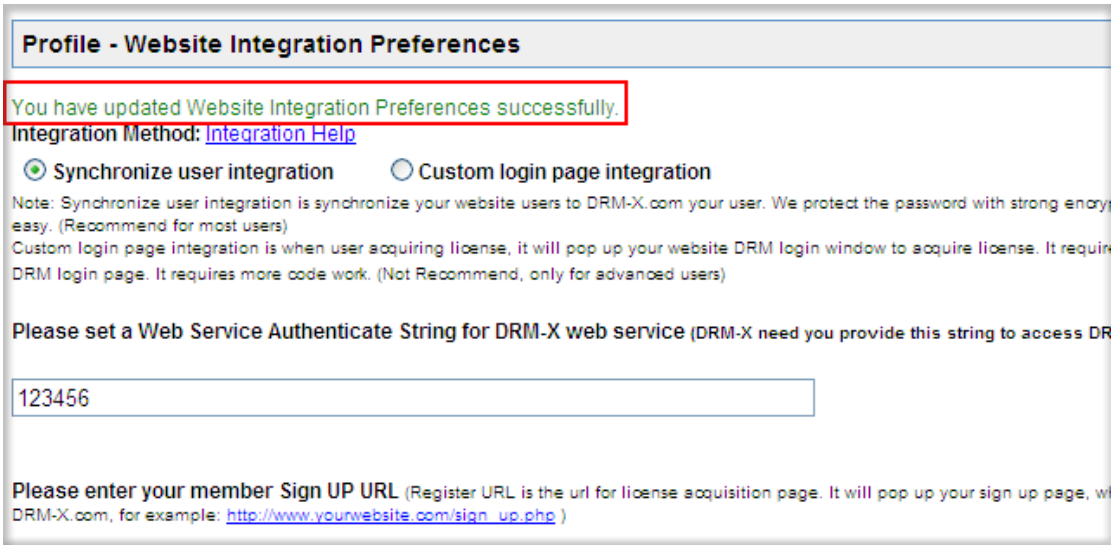
1. Login your DRM-X account.
2. Click the **Account Settings** in the left panel and choose the **Website Integration Preferences**, as shown in the screenshot below:



3. Select **Synchronize User Integration** and enter the Web Service Authenticate String. As shown in the screenshot below:



4. Click the **Submit** button below and you will get the message shown on the picture below:



Ⅳ. Download Sample Code

You can download the sample pages by clicking the link below:

http://www.drm-x.com/download/DRM-X_2.0_Synchronize_user_integration/DeleteProductRights.rar

Ⅴ. Step by Step Introduction

Step1: Open your “DeleteProductRights.php” page

Step2: Download nusoap.php classes

Download "nusoap.php" file:

http://www.drm-x.com/download/nusoap.txt

Note: Please rename the file into .php extention and save it after you download.

Step3: Call "DeleteProductRights.php" function

When users’ information are added your database, please run these codes blew, then call **DRM-X XML Web Service** and synchronize to your DRM-X platform.

```
<? php
require_once ('nusoap.php');
$pid = $_REQUEST ["pid"];
$wsdl="http://www.drm-x.com/2/haihaisoftlicenseservice.asmx?wsdl";
$client=new soapclient2 ($wsdl, 'wsdl');
$client->soap_defencoding = 'UTF-8';
$client->decode_utf8 = false;
$AdminEmail="jason@haihaisoft.com";
$WebServiceAuthStr="123456";
$param = array (
  'AdminEmail' => $AdminEmail,
  'WebServiceAuthStr' => $WebServiceAuthStr,
  'ProductID' => $pid,);
$result = $client->call ('DeleteProductRights', array ('parameters' => $param), '', '', true, true);
$massage= $result ['DeleteProductRightsResult'];
echo $massage;
?>
```

Step4: Run the “index.php” page

When you call the **“DeleteProductRights”** function, if you receive ‘1’, that means you have already deleted file successfully. Then please check if it has been added successfully to your database and DRM-X platform.

Ⅵ. "DeleteProductRights" XML web service

You can get the details about **“DeleteProductRights”** Web Service by visiting the link:

http://www.drm-x.com/2/haihaisoftLicenseservice.asmx?op=DeleteProductRights
