

HHMeet Tutorial - How to protect Zoom Meeting with DRM?

End user tutorial, How to join HHMeet(Zoom) meeting?

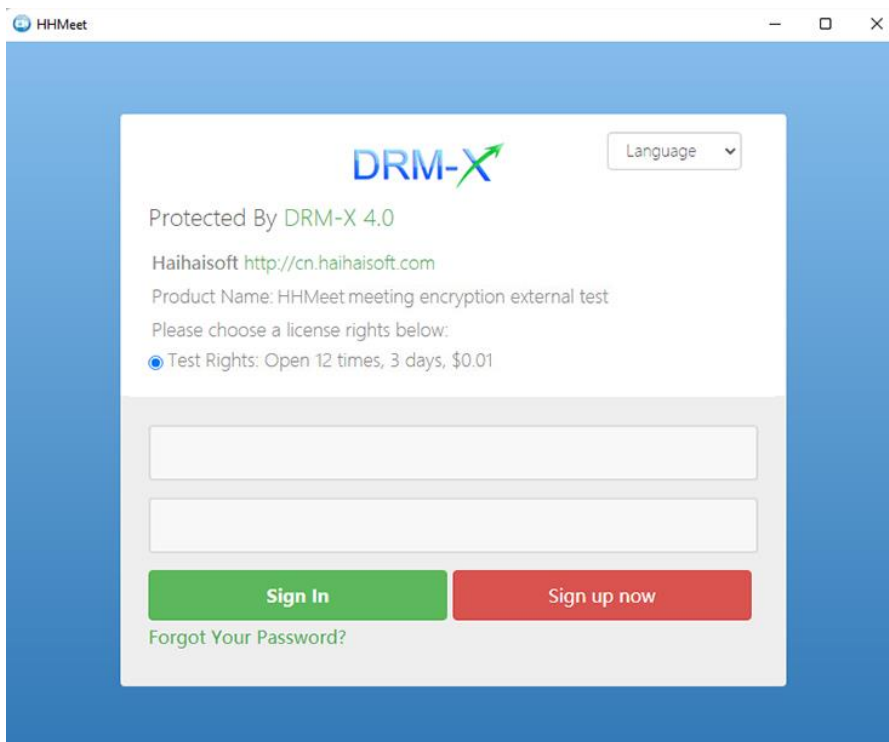

1. Run HHMeet.exe

Paste the HHMeet URL, the URL must have complete and correct parameters:

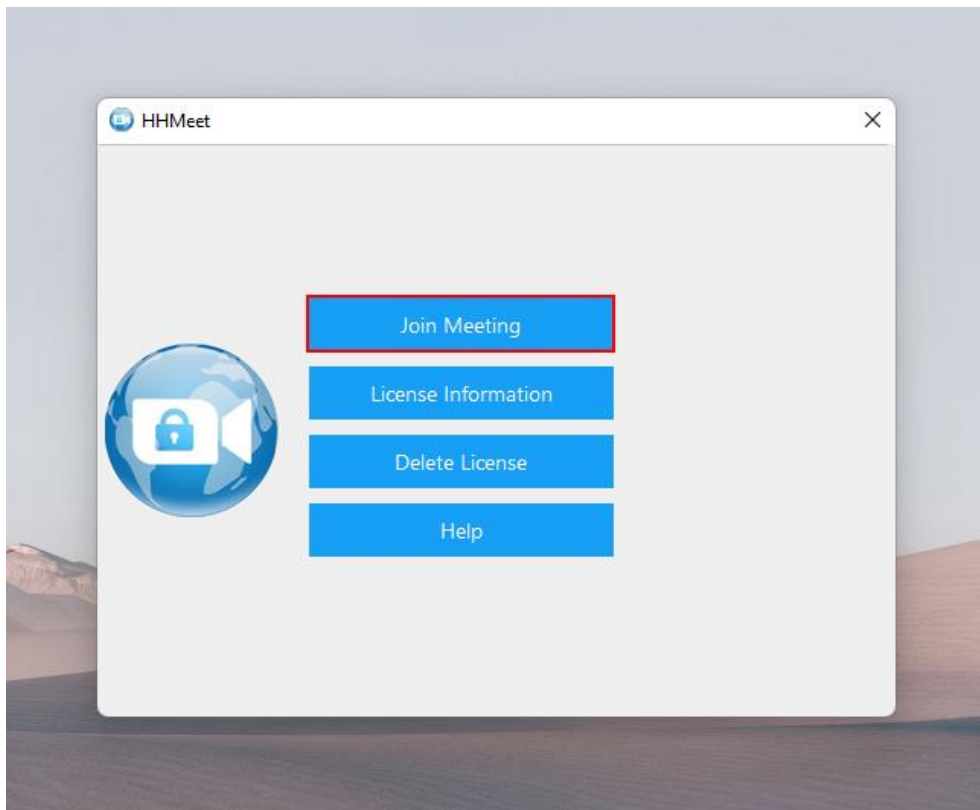

<https://hhmeet.com/m.html?p=xxxxx>

2. Click Authenticate URL to verify, and then enter the DRM-X 4.0 end user account to obtain the license.

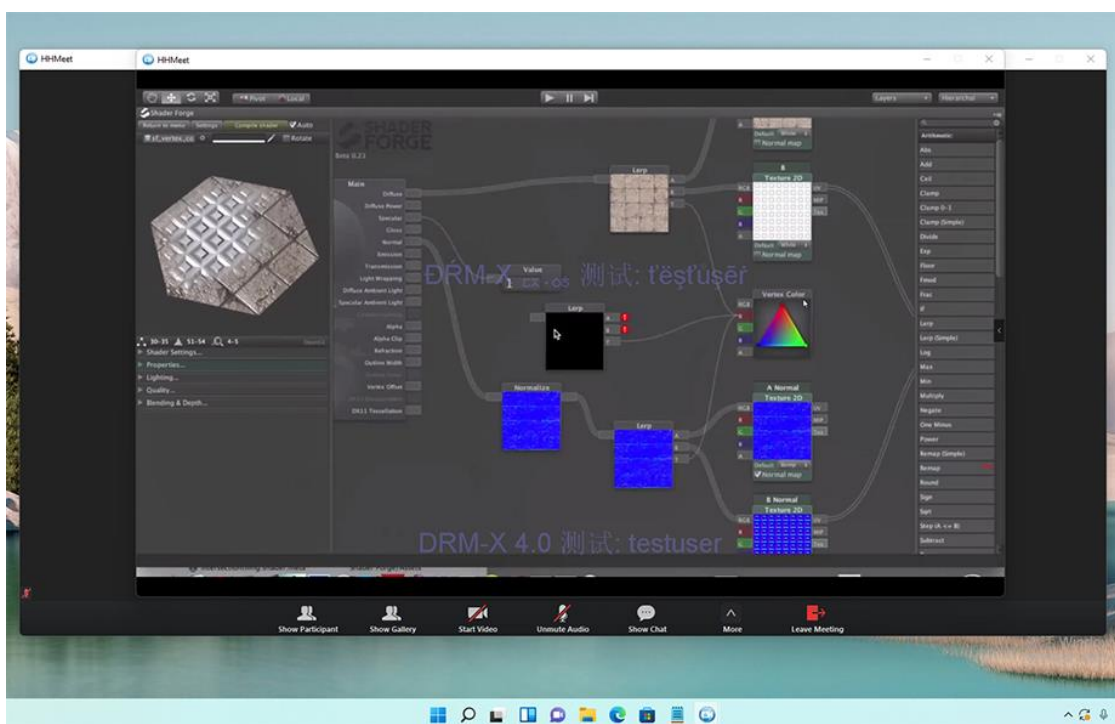

3. Click the Join Meeting button to join the meeting.

If the meeting host does not start the Zoom meeting, users can only see their own camera screen. After the host starts the meeting, HHMeet will display the complete meeting interface, including chat, microphone switch, camera switch and other functions.
